STRATFORD

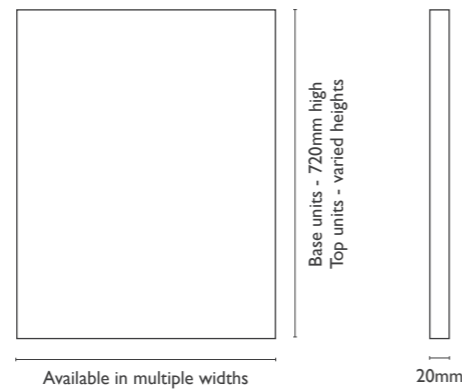

STRATFORD

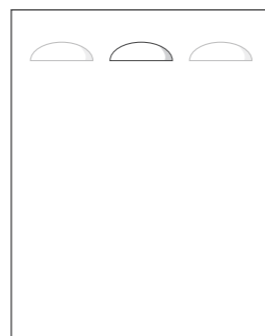

The Stratford range is the perfect blank canvas for those who desire to incorporate their own personal marks. Chose from our eclectic range of standard paint finishes that will suit any home - if you can't see the perfect colour, then we can have your very own finish made up (as an optional extra).

Simplicity in furniture design allows further textures to be brought in without overcrowding the feel, such as marble flooring or granite stonework surfaces in contrasting hues. If you're at the beginning of building a home, this will provide the ideal foundation to starting your journey with simplicity and authenticity combined.

DOOR FINISHES

The Stratford range has the same benefits as our other classic door designs, with the ability to have the door in both a lay-on and in-frame design.

This range is one of only a few designs that works in both modern and classic settings, allowing a simple 'slab' door design to be painted in any finish, gives the Stratford door endless possibilities.

www.manorinteriors.com

Handles can be placed on the kitchen anywhere on the door that best suits the overall design of the kitchen.

Ask your account manager for our range of handles.

Available in both a 'Lay-on' and 'In-frame' design, Our 'Lay-on' design places each cabinet door to the front of each carcass, leaving no visible carcass on show.

Our 'In-frame' design uses the carcass to encapsulate each door using an 20mm frame, creating a more classic look.

Available in our natural real-wood finish, or alternatively in one of our matt painted options.

All of our painted finishes are available on either Textured or smooth. 'Textured' is paint applied directly onto our Oak doors creating a textured end result. Alternatively you can select a 'Smooth' finish, creating a seamless finish.

COMPLIMENTING CARCASE

Our Dorchester, Gawsworth, Cobham, Wickham and Stratford ranges are complimented with the Natural European Oak wood finish. Also available in one of our standard carcass finishes.

Note: All finishes are representative. Due to print these will not exactly match the finished product. To see these finishes speak to your local showroom for physical samples.
